FOREWORD

This directory of county agricultural agents and State extension directors, as of November 1944, has been prepared as a ready reference for those counseling with returning veterans who wish to engage in agriculture.

Veterans desiring general and technical information on agriculture or some particular phase of it should be advised that bulletins and other informational materials may be obtained from the State agricultural college through the State extension agents, as local representatives of the State agricultural college and the U. S. Department of Agriculture provide counsel and information on the agricultural and related matters.

They can advise those interested as to the services of the Agricultural Adjustment Administration, Farm Security Administration, Social Security Administration, Rural Electrification Administration, and the services these agencies can render.

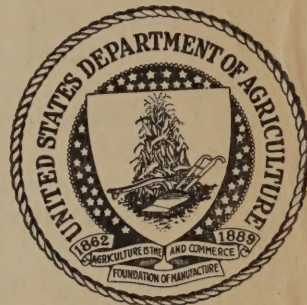

County agents can also put veterans in touch with the local County Agricultural Advisory Committee, the State Agricultural Loan Committee, which passes upon applications for loan guarantees under the G. I. Bill of Rights.

Veterans should be encouraged to make full use of the services available through these various agencies.

Specific addresses are given for State extension offices. In most instances only the post office addresses are listed. Where a specific street or building address of an extension office is not listed, the office will usually be found in the Federal Building (post office) or the county courthouse. Mail addressed by both the extension agent's name and title (i.e., county agricultural agent) will reach him even though a street address is not included. Local telephone directories will give the street addresses of county agents' offices.
